Aventura Worldwide Transportation Service joins the global movement to "Go Green"

Aventura Worldwide Transportation Service recently added two 2009 GMC Yukon Hybrid SUV's to its fleet in an effort to continue the process of incorporating green initiatives into the company.

The purchasing of the hybrids is just one of the ways in which the company is helping to improve the environment. Within the past year the company began reducing its paper supply by processing reports electronically instead of printing them, by emailing invoices instead of sending by traditional mail and by taking reservations live instead of recording them on paper before entering them into the system.

"We think of ourselves as an industry leader, always at the forefront of technology and industry standards, so we understood the necessity of integrating hybrids into our fleet. We believe in contributing to making the environment a safer place, so the addition of hybrids was an easy decision," said vice president and general manager Scott Tinkler.

By adding Yukons to the fleet, Aventura Worldwide will be able

to save money formerly spent on fuel and will contribute to fewer pollutants and carbon emissions being released into the atmosphere.

Aventura Worldwide Transportation Service, awarded #1 in the nation, 2007 - 2008, by *Limousine and Chauffeured Transportation Magazine*, is

based in Aventura and has been serving the Miami, Ft. Lauderdale and Palm Beach areas for the past 20 years. With a fleet ranging from sedans and SUV's, to 61 passenger Motorcoaches, and a full service meetings and conventions department, any ground transportation request can be accommodated. With its affiliate net-

work, Aventura Worldwide also caters to their client's needs outside of Florida and the United States. Aventura strives to provide the most personalized service that has become synonymous with the Aventura Worldwide name.
